Practical 2: Build a Grouped RetailPulse Sales List Report

Related topic: Create List Reports | Tool: IBM Cognos Analytics | Package: RetailPulse

Objective

Construct a list report, group it meaningfully, format its columns, and add a summarizing footer.

Materials Required

IBM Cognos Analytics access, RetailPulse Sales package, the report saved in Practical 1 (optional starting point).

Step-by-Step Procedure

#	Action performed	Observation
1	Created a new **List** report against the RetailPulse Sales package.	Empty list object on the canvas.
2	Added **Region, Store Name, Product Category, Quantity, Sales Amount** as columns.	Five-column list; rows repeat Region and Store on every line.
3	Selected Region, then Store Name, and chose **Group/Ungroup** (Region first, Store Name second).	Grouped columns turn into nested bands; duplicates collapse.
4	Selected Sales Amount, set **Data Format > Currency** (2 decimals); selected Quantity and Sales Amount and set **Horizontal alignment: Right**.	Values show with $ and thousand separators, right-aligned.
5	With Sales Amount selected used **Summarize > Total** and set **Footer** aggregate; total placed under each Store Name group and as overall total.	Footer rows appear beneath each Store group and at the end of the list.
6	Inserted a **Page Header** containing Text Item 'RetailPulse - Grouped Sales Report' and a **Date** item (run date); ran and saved as 'RetailPulse - Grouped Sales List'.	Header shows title and 15 October 2026 on every page.

Output

RetailPulse - Grouped Sales List (Run)

RetailPulse - Grouped Sales Report Run date: 15 October 2026

Fig 2.1: List grouped by Region then Store Name, with currency-formatted Sales Amount and a Total footer per Store.

Expected Outcome Check

✓ Rows grouped by Region and Store Name with duplicates collapsed.
✓ Sales Amount formatted as currency; Quantity and Sales Amount right-aligned.
✓ Group totals sum correctly beneath each Store Name group (and overall).
✓ Page header with title and run date appears on every page.

Conclusion

A two-level grouped list report was built, formatted and summarized. Its grand total (Quantity 7,591, Sales $678,988.13) is the reference figure used to validate the crosstab in Practical 4.

Note: screens and figures are illustrative renderings built on a consistent sample RetailPulse dataset (report date 15 October 2026, current quarter Q4 2026: 1 Oct to 31 Dec).
